Street trees are an important part
of your local neighbourhood and add
value to your home and community.

Council is pleased to offer you two tree species to
select from, which have been chosen based on:

- local neighbourhood character
- the ability of the tree to survive and thrive in the local environment
- available planting space, and any water/gas/electricity services located above or below ground
- the contribution the type of tree would make to sustainability and local biodiversity.

Street Tree Renewal

Delma Court

The street trees in your area have been
selected for renewal in 2023-24. Have your say
online at engage.whittlesea.vic.gov.au/strp
or by completing and returning the enclosed
questionnaire.

Each year Council undertakes the Street Tree Renewal Program to ensure that trees throughout the municipality are of a high standard and that the types of trees planted add character and appeal to the area.

Your street has been selected as part of the program, with renewal works set to be completed by end of June 2024

Please let us know which species you would prefer planted. Tree options for your street are listed below.

Option 1

Narrow-leaved Peppermint

Eucalyptus radiata

Hardy, well-structured drought-tolerant tree that is locally native and contributes to local character. Creamy white flowers in summer attract birds and insects. Oil produced by this Eucalypt is used in essential oil production.

Features:

- Dark green leaves that have a peppermint scent when crushed
- Finely-fissured bark

Option 2

Common Horse Chestnut

Aesculus hippocastanum

Medium, oval, fast-growing deciduous tree with distinctive foliage and a great shade tree. Leaves exhibit different shades of yellow-brown in Autumn.

Features:

- Small, white flowers cover the tree in spring
- Chestnut-like fruit
